Dear Colleague:

This [Wednesday, October 14, 2026], [NAME OF FACILITY/SYSTEM/ASSOCIATION] is participating in Health Cares About Domestic Violence Day – an awareness-raising day that aims to reach members of the healthcare and advocacy communities to offer education about the critical importance of addressing the unique health needs of domestic violence survivors. This year, Health Cares About Domestic Violence Day is shining a lens on the voices of survivors of domestic violence to improve healthcare settings.

Uplifting voices of survivors is essential to improving health systems and creating stronger, safer, and more compassionate communities. Survivors bring lived experience, resilience, and valuable insights into systems that can cause harm and prevent survivors from receiving resources. By centering survivor voices, health systems can develop policies and programs that better reflect the realities of those affected by domestic violence.

To get involved and learn more about how to build survivor leadership, call me at [EXT.**], or e-mail [BLANK] at [BLANK]. For further information, free resources, and technical assistance on responding to domestic violence in the health care setting, visit the Futures Without Violence website: www.FuturesWithoutViolence.org or e-mail: health@futureswithoutviolence.org. You can also visit the Futures Without Violence [Health Cares About Domestic Violence Day](#) web-page for additional information on how to get involved with Health Cares About Domestic Violence Day and resources related to emergency preparedness planning.

Thank you for your efforts to improve the health outcomes of survivors,
